.
What is the British army doing? It has been making a major push in the Middle E

ast to make use of the new aircraft carrier and is hoping to find a solution to

the problem.
It is said that the carrier is the first in the world to be armed with air-to-g

round missiles.
What does it actually do? The carrier is designed to be a &quot;fleet&quot; of

fighter jets and it can carry as many as 6,000 troops, including about 50 Britis

h troops, in its first deployment.
What does it actually mean? The aircraft carrier is the first of its kind to be

used in the Middle East and it will be used for training and to support operati

ons in Iraq and Syria.
The new carrier is expected to carry about 10,000 troops to the Middle East, in

cluding as many as 10,000 troops.
Will it be used in the Middle East? The military has said that the new aircraft

carrier will be used to help fight ISIS and its allies.
Is it ready? Will it be used in the Middle East? Will it be used in the Middle

East? Is the British military ready to use
T.
